

Prakriti Students awareness programme

(for the period of April to June, 2022)

The Institute of Forest Genetics & Tree Breeding, Coimbatore organizes awareness programme under “PRAKRITI” for school and college students at Edu Centre, Gass Forest Museum. The main aim of this programme is to create environmental conservation awareness among younger generation to engage them to be actively involved in activities related to environment conservation. The students were imparted knowledge by conducting lectures on land pollution.

The lectures on “Air Pollution and Industrial management strategies” ‘Fire and its damage to ecosystem’ ‘Effects of mining on ecosystems’ (04.05.2022) were organized. Besides this the “International Yoga day” was celebrated on 21.06.2022 and mass yoga session was organized.

Students were shown short films on the relevant themes. A video presentation on the “History of Gass Forest Museum” was also presented. Later on students were taken to Gass Forest Museum.

The details of the students attended Prakriti are furnished below:

S.No	Month	No of School Students	No of College Students
1	April	584	330
2	May	225	412
3	June	798	156
	Total	1607	898
