

TRAINING ON BIOLOGICAL DIVERSITY ACT, 2002
25 to 27 September, 2019
Institute of Forest Genetics and Tree Breeding
Coimbatore

India is one of the 17 megadiverse countries of the world, having rich biological resources with present and potential value. The country is also a signatory to the Convention on Biological Diversity (CBD) which emphasises conservation of biological diversity, sustainable use of its components and fair and equitable sharing of benefits arising out of the genetic resources. As a follow up of CBD signed at Rio de Janeiro in 1992, the Govt. of India enacted an umbrella legislation called 'Biological Diversity Act, 2002' in the same lines of CBD. This act has also created the National Biodiversity Authority (NBA), located in Chennai, State Biodiversity Boards (SBB) in each State, and Biodiversity Management Committees (BMC) at Local Self Government (LSG) level.

In order to create awareness on this important Act, the Institute of Forest Genetics and Tree Breeding (IFGTB), Coimbatore is organizing three days training on 'Biological Diversity Act, 2002' for the officials of Forest, Agriculture, Veterinary, Fisheries, Panchayath Raj etc. from Tamil Nadu and Kerala, during 25 to 27 September, 2019. The training is sponsored by the National Biodiversity Authority, Chennai.

A total number of 30 participants are expected to attend the training programme. It will cover topics such as Overview of Biological Diversity of India, Biodiversity Act, 2002 and Biological Diversity Rules, 2004, Access to Genetic Resources and Benefit Sharing, Preparation of People's Biodiversity Register, Intellectual Property Rights on Biological Resources as well as Biodiversity and Bioprospecting.
