

## PRAKRITI PROGRAM

### Lecture on “WILD LIFE CONSERVATION” and “LiFE”

### Organized by ICFRE- IFGTB

#### Environment Awareness & Nature Connect Program for Government school students.

The ‘Prakriti’ environment awareness and nature connect program was organized for Government school students on 05.02.2024 at Government Higher Secondary School, Ganapathy, Coimbatore for 50 Nos. of grade 8<sup>th</sup>. During the program, lecture was given on “Wild life conservation” by Miss. T. Remya, MTS. She explained about environment, biotic and abiotic factors, and its effect on living organisms. The terrestrial and aquatic eco-system was explained in detail. She pointed that different canopy system in the forest and how the tree structure is forming. The different forms like autotrophs, etc. discussed in detail. She explained about the protected areas and its importance especially with reference to Tiger Reserves. Further, she explained in detail about number of tiger reserves in India and its conservation strategies. She touches upon the corridors and discussed consequences or human animal conflict, & conservation of forest and wild life.
