

## **PROJECT PROFILE**

- Project Title** : **Genome wide and geospatial approaches for enhancing the adaptive potential of threatened rattan resources in India (Network project)**
- Principle Investigator** : Dr. Modhumita Dasgupta, Scientist G
- Duration** : 2019-2022
- Objectives**
1. Genome wide SSR diversity analysis and ecological niche modeling of selected wild rattan resources.
  2. Identification and validation of gender specific markers for early sexing.
- Funding Agency** : Department of Biotechnology, GoI
- Total Budget** : Rs. 29.562 lakhs (IFGTB component)
