

PROJECT PROFILE

Title	Assessment of major insect-pests of red sanders and their management in nurseries and plantations
Principal Investigator	Dr. A. Karthikeyan Scientist – G
Co Investigators	Dr. C. Rajesh TA
Duration	3 years (April 2024-March 2027)
Objectives : 1. Documentation of insect pest complex and assessment of periodical intensity of incidence in red sanders nurseries and plantations. 2. Studies on the bio-ecology and population dynamics of insect pests in red sanders. 3. Development of eco-friendly management measures against key insect-pests of red sanders. 4. To conserve and enhance the productivity of red sanders through effective pest management strategies.	
Funding Agency	ICFRE
Total budget	25.45 lakhs
